OBJECTIVE

I am a driven Frontend Engineer with 4+ years of experience and expertise in modern JavaScript frameworks (React.js, React Native), component-based architecture, and responsive web development. Specialized in building scalable web applications, custom WordPress themes and plugins, and RESTful API integrations. Proficient in state management, performance optimization, database management (MongoDB, PostgreSQL), and modern development workflows including Git and agile methodologies. Experienced in delivering production-ready solutions using both code and no-code platforms, with a focus on clean code, best practices, and staying current with emerging technologies.

EDUCATION

UNIVERSITY OF GHANA, LEGON **2019-2023**
BSc. Information Technology **Date of Graduation: Jan. 2024**

Relevant Courses: Programming Fundamentals, Database Management Systems, Web Development, Software Engineering, Human Computer Interaction , Artificial Intelligence , Mobile App Development

WORK EXPERIENCE

Vire Agency,Lead Frontend Developer & Mobile Engineer, Hybrid **Dec 2024 - Present**

Accomplishments:

- Collaborated with a cross-functional team to develop Vire Workspace, an internal productivity application featuring check-in/out functionality, task management, work tracking, and accountability systems, significantly improving team productivity and operational efficiency.
- Designed and developed multiple custom WordPress websites and no-code web applications for diverse clients including a professional football club, juice manufacturing company, spa and wellness center, and technology companies, implementing custom themes and plugins to meet specific requirements.
- Deployed website updates to enhance functionality, user experience, and performance, improving site load times and user engagement metrics.
- Participated in the SkillIT program, facilitating tech knowledge transfer and empowering learners with foundational digital skills.
- Collaborated with designers and backend engineers to ensure seamless integration and optimal user experience across web platforms.

Ghana Civil Aviation Authority (Air Traffic Safety) **Dec 2023 - Oct 2024**
Software Engineer, National Service Personnel

Accomplishments:

- Developed a user-friendly in-house web application to serve as a virtual database for GATA staff, improving operational efficiency and record-keeping.
- Designed promotional materials for the Marketing and Course units, including flyers, brochures, calendars, and logo prototypes.
- Assisted in troubleshooting and maintaining essential IT infrastructure, ensuring smooth operation of internal systems.

Partechnologies, Software Engineer, Contract **July 2023- Oct 2024**

Accomplishments:

- Conceptualized, designed, and developed custom web applications for Christ Vision International School, addressing their specific organizational needs.

- Utilized technologies such as CSS, JavaScript, and ReactJS to build responsive, user-friendly, and visually appealing web applications.
- Conceptualized, designed, and developed custom web applications for Christ Vision International. Participated in daily stand-up meetings, code reviews, and brainstorming sessions, driving the successful implementation of projects using ReactJS.

Damgbe Rural Bank, IT Support, Internship

Nov 2022-Jan 2023

Accomplishments:

- Conceptualized, designed, and developed custom web applications for Christ Vision International School, addressing their specific organizational needs.
- Utilized technologies such as CSS, JavaScript, and ReactJS to build responsive, user-friendly, and visually appealing web applications.
- Participated in daily stand-up meetings, code reviews, and brainstorming sessions, driving the successful implementation of projects using ReactJS.

TECHNICAL SKILLS

- **Frontend Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, React Native, HTML5, CSS3, JSX, Redux, Context API, Hooks
- **Backend & Integration:** Node.js, Express.js, RESTful APIs, GraphQL, API integration, Authentication (JWT, OAuth)
- **Styling & UI Libraries:** CSS3, Sass/SCSS, Styled Components, Material-UI, Tailwind CSS, Responsive Design, CSS Grid, Flexbox
- **Build Tools & Package Managers:** Webpack, npm, yarn, Babel, ESLint, Prettier
- **Version Control & Collaboration:** Git, GitHub, Git Flow, Code Reviews, Branching Strategies
- **Databases:** MongoDB, PostgreSQL, Database Design, Query Optimization
- **No-Code Platforms:** WordPress (Custom Themes, Plugin Development, PHP), Shopify (Theme Customization, Liquid)
- **UI/UX Design Tools:** Figma, Adobe XD, Design Systems, Prototyping, Wireframing
- **Testing & Quality Assurance:** Unit Testing, Integration Testing, Cross-browser Testing, Performance Testing, Debugging
- **Development Practices:** Agile Methodologies (Scrum, Kanban), CI/CD, Responsive Design, Accessibility (WCAG), SEO Optimization

SOFT SKILLS

- Team Leadership,
- Technical Communication
- Integrity
- Problem-solving,
- Code Mentorship,
- Cross-functional Collaboration
- Punctuality
